Hazardous Weather

Hazardous Weather

Tuesday: Small Chance for Storms

Mainly 1pm to 7pm

Weather Forecast Office
Amarillo, TX
Issued Aug 31, 2021 5:46 AM CDT

This afternoon brings around a 10 percent chance for thunderstorms to the south central Texas Panhandle. If any storms develop, potential hazards include strong wind gusts and localized heavy rain in addition to lightning.

Precipitation Chances Today

Valid Tue 7:00AM through Tue 7:00PM CDT

Weather Forecast Office
Shreveport, LA
Issued Aug 31, 2021 3:00 AM CDT

Isolated showers and thunderstorms will be possible this afternoon over portions of Lower East Texas and the southern sections of Northcentral Louisiana.

Hazardous Weather

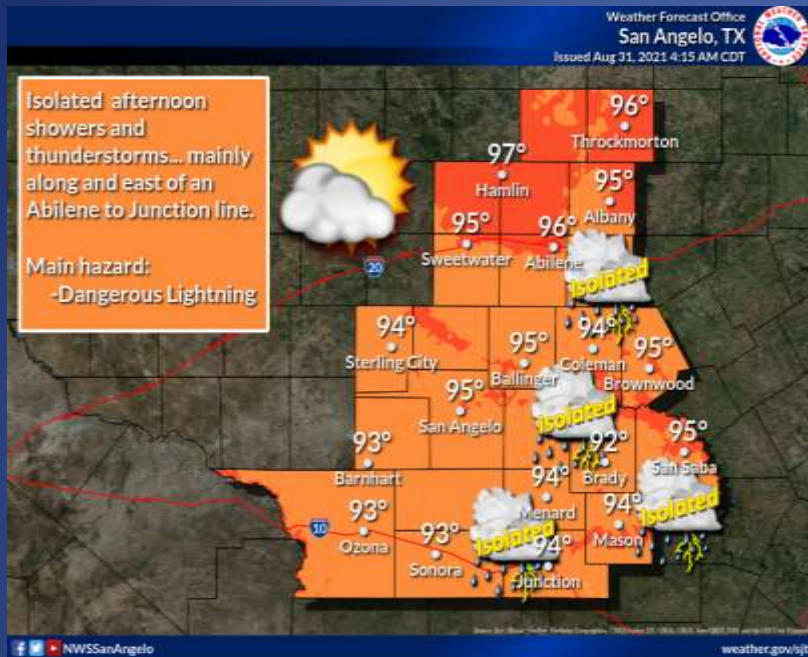

With deep tropical moisture... numerous showers and isolated thunderstorms are on tap today down along the coast and into the coastal waters. Scattered showers inland during the late morning into the afternoon hours.

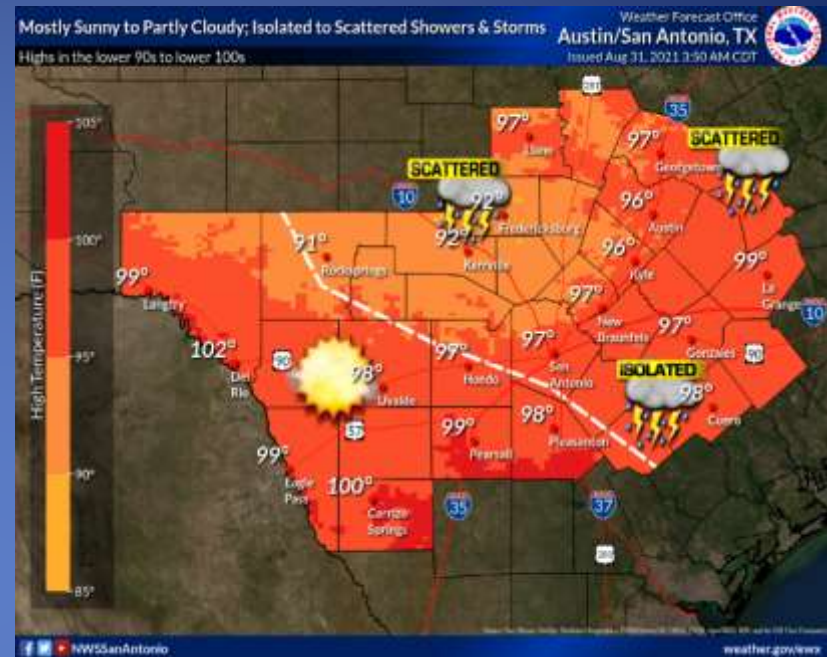

Showers and isolated thunderstorms down along the coast and into the coastal waters. Chances for showers taper off the further inland you are located.

Hazardous Weather

Mostly sunny with southeast to south winds 10 mph or less. Isolated afternoon thunderstorms along and east of an Abilene to Junction line.

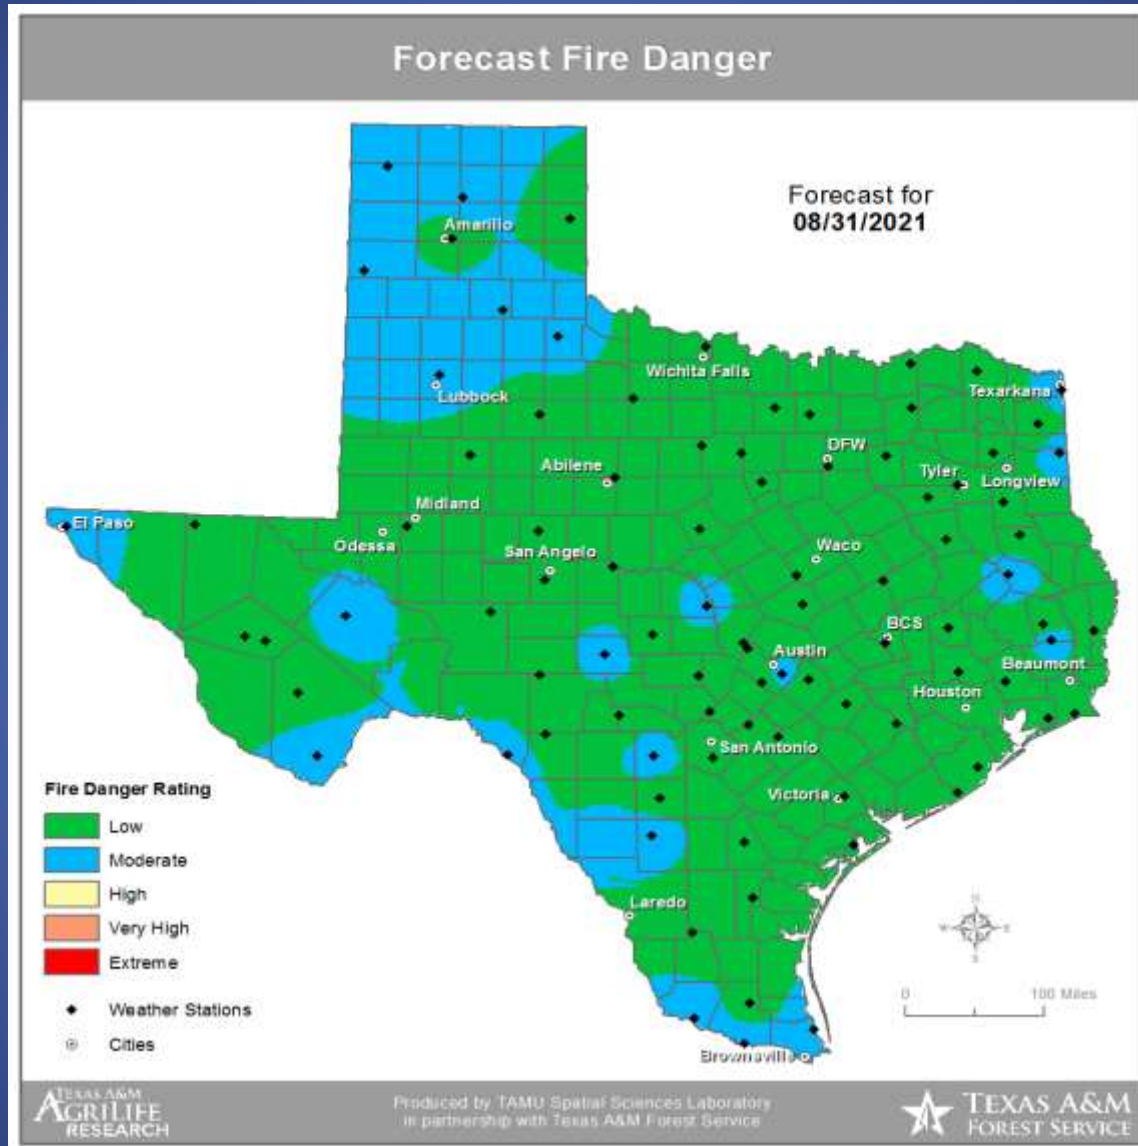

Expect isolated to scattered showers and thunderstorms this afternoon from the Hill Country eastward into the I-35 corridor and coastal plains. It will be warm again today with highs in the lower 90s to lower 100s. Afternoon heat index values will peak in the 103 to 108 degrees range for areas along and east of I-35.
